

## **STEAM in the Foreign Language Classroom (Grades: K - 12)**

**This workshop will provide teachers with ideas on how to implement science, technology, engineering, art and math in the foreign language classroom. Attendees will learn how to create interactive posters with the following interactive software and electronic invention tool - Scratch, Aurasma & Mackey Makey. This is a hands-on workshop; therefore, everyone is encouraged to bring his/her own electronic devices - a laptop and a tablet.**

*Given by Spanish Teachers Senora Jimenez and  
Profesora Fernandez from Freehold Township Schools  
Monday, April 16, 2018, 4:00 PM at the MCEA Office in Neptune*
